We care about your business. Your success is our success.

Buying from local businesses keeps our local economy strong, vibrant and creates jobs in our communities. Local companies support local schools and organizations.

Buying local makes a difference.

When Accuracy Counts?

Are you playing horseshoes with your scale calibrations where close is good enough?

We agree playing horseshoes is a great past time but has no place when it comes to your scale and balance calibrations.

At Rogan "Accuracy Counts".

Our ISO 17025 Accredited service department provides quality calibrations that help increase your profitability.

No other scale company spends the time and effort to insure their calibration weights are maintained to near perfect accuracy. Our documented weight program verifies this commitment.

Our technicians are factory trained and tested for their proficiency and skills of scale calibrations.

Our commitment to accuracy benefits every customer. Whether your product cost a .01¢ or \$ 100 a pound you need accurate scale calibrations.

Accuracy increases profitability

ISO-17025 Accreditation Update

Rogan Incorporated has successfully passed its annual ISO-17025 full assessment audit.

During this audit technicians are tested on their proficiency for calibrations of scales and weights. During this testing the L-A-B auditor ran the technicians through several scenarios to insure they know our QMS system, Handbook 44, Handbook 105, calibration procedures, reporting and what ISO-17025 means.

In addition to our standard audit we submitted a new expanded Scope of Accreditation. Our approved scope includes the expansion of our calibration capabilities and revised lower Measurement of Un-Certainties.

You may view our new Certificate and Scope of Accreditation at our web site or request we send you a copy
www.roganinc.com.

New Guys

We are excited to announce the addition of over 50 years of scale service and calibration experience.

In our Des Moines area we have added Pete G. Pete has been servicing that area for years and many of you already know his capabilities and dedication to getting the job done right the first time.

In our Bettendorf office we are pleased to have Greg C. join our team. Greg has well over 30 years of experience and factory training from Mettler Toledo.

The addition of Pete and Greg brings our Service Team to 10. All ready to take care of you with quality equipment, service and calibrations.

Thanks for joining the Rogan team.

Rick

ISO 17025 ACCREDITED

Scale Calibrations Cert # L2056
